

## Hancock County

### Traffic Incident Management Group Meeting Notes

September 9, 2020

1730

Meeting Via Zoom

- 1) Welcome
- 2) Introductions – applicable introductions were made amongst those on the call.
- 3) Open Floor – The group revisited several issues that had been discussed at the last meeting.
  - a) Sign boards – Andrew Allen provided a map of suggested sign board locations. This is still an open discussion and potential sign board sites will be explored as they are presented. It is not clear at this time how many boards will be available.
  - b) Training – given current COVID 19 restrictions it remains difficult to conduct in person training. Several online sites were suggested. As we move forward, I am envisioning that we will come up with a way to conduct in person training while remaining CDC compliant. More to come on this.
  - c) Reverse evacuation – this is a robust topic that several members of the group felt would warrant some time to discuss. This will be a key point on our October agenda.
  - d) Detour Routes – this was another topic that will be a key topic on further agendas.
- 4) Area incident discussions – There were no recent incidents to be discussed.

5) Moving Forward:

- a) Identification of potential stakeholders – since the last meeting almost a half dozen members have been added to the group.
- b) Training needs and dates – Still a work in progress

6) Next Meeting Dates – October 7 at 0930 is our next meeting date. The meeting invite has been sent out.

7) Adjourn – The meeting was adjourned at 1840.
