

# Errata

*Purpose of the Errata: The purpose of the Errata is to provide a mechanism for MaineDOT to communicate changes that have occurred between the time the new STIP project listings are pulled from the system (typically at the beginning of January) and the time it is approved (typically in April or May) by FHWA/FTA. During this time, changes to existing projects warranting disclosure and the addition of new work must be communicated to ensure that proper approvals are in place when the new STIP is approved. It should be noted that most items listed on the Errata reflect Administrative modifications/Amendments to the current STIP that must be in place for a smooth transition to the new STIP when approved. Without this document, prior FHWA approvals in the previous STIP will not carry over.*

Project Information							FHWA Stages						Total Available	New or Existing Project	Notes (may include fund source breakdown here as applicable)
WIN	Title	Scope	Development Responsibility	MPO	Towns	Workplan Description	Program Year	PE	ROW	Construction	CE	Planning			
25631.00	Various Locations, Highways	Bridge Deck Replacement	MaineDOT	BACTS	Various	Preliminary engineering for Interstate, NHS, and Freight Network bridge deck replacements.
