

Transportation Improvement Program

2025-2026-2027-2028

Approved by the BACTS Policy Committee on April 15th, 2025

Program of Projects (POP) Public Notice

Public notice of public involvement activities and time established for public review and comment on the Transportation Improvement Program (TIP) will satisfy the POP requirements of the Federal Transit Administration (FTA) Section (§) 5307 Program.

“The preparation of this document has been funded in part by the U.S. Department of Transportation, Federal Highway Administration, and Federal Transit Administration. The contents of this document do not necessarily state or reflect the official views or policies of the U.S. Department of Transportation.”

Non-Discrimination Policy Statement

The Bangor Area Comprehensive Transportation System (BACTS), as a recipient of Federal financial assistance and under Title VI of the Civil Rights Act of 1964 and related statutes and regulations, is committed to ensuring that no person shall, on the grounds of race, color, national origin, gender, age, disability, income, or limited English proficiency, be excluded from participation in, be denied the benefit of, or otherwise be subjected to discrimination under any program or activity conducted by BACTS, regardless of whether programs and activities are federally funded or not.

Metropolitan Planning Organization (MPO) Certification Statement

The Maine Department of Transportation has conducted statewide [evaluations](#) to determine if there are [reasonable alternatives](#) to [roads, highways, and bridges](#) that have required [repair and reconstruction](#) activities on two or more occasions due to emergency events per the requirements of 23 CFR § 667. As a result of this evaluation, it can be certified that there are no locations meeting these parameters within the metropolitan planning boundaries. No further action is required at this time but if this statute is triggered in the future, all appropriate steps will be taken to develop reasonable alternatives to address the problem areas.

Introduction

The Bangor Area Comprehensive Transportation System (BACTS) is the organization designated by federal and state government to carry out transportation planning in the Greater Bangor region, also known as a Metropolitan Planning Organization (MPO). BACTS evaluates and approves proposed transportation improvement projects in the metropolitan planning area and facilitates communication between its member communities and state and federal transportation agencies. A map of the BACTS metropolitan planning area is located on the following page. The metropolitan planning area includes Bangor, Bradley, Brewer, Hampden, Hermon, Milford, Old Town, Orono, Orrington, Penobscot Indian Island, and Veazie.

The Transportation Improvement Program (TIP) is an annual document that contains transportation projects recommended for federal funding during the next four years. This document describes both the transportation-related projects and the methodologies employed to determine the projects to be accomplished within the BACTS Metropolitan Planning Area (MPA) using Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Maine Department of Transportation (Maine DOT), and local matching funds during the years of 2025, 2026, 2027, and 2028.

The projects included in the TIP ultimately establish an overall program strategy reflecting the BACTS Metropolitan Transportation Plan (MTP) and the State of Maine transportation plans, which are aimed at meeting the long-range needs of the transportation system. Where the MTP defines goals and objectives for transportation planning operations for the next twenty years; the TIP defines the actual expenditures and efforts to move towards or meet those goals and objectives.

Implementing agencies propose projects to BACTS on a regular basis to be coordinated into a comprehensive listing of the area's federally funded transportation improvements planned for the short-range. These listings include information regarding cost, specific funding sources, project timing, etc. Once in the TIP, projects represent a commitment of funding on the part of the implementing agency. Included within this document is a description of the process that culminated in the establishment of the project slate listed, explanation of terms used, project rating criteria, public involvement in the process, compliance with other federal and state regulations, and certifications to funding agencies.

No federal funds may be used on transportation activities within the BACTS planning area unless the BACTS TIP lists those expenditures. Within the BACTS area, the BACTS Policy Committee and MaineDOT have agreed to make MaineDOT responsible for certain areas of planning requiring overall knowledge of statewide planning activities. Those areas of planning designated as MaineDOT domains include Interstate-95 (I-95) and Interstate-395 (I-395) activities, hazard elimination activities, major bridge planning activities, rail planning activities, airport planning activities, port and marine planning activities, and special transportation planning activities. While BACTS is not the lead agency, BACTS does coordinate with MaineDOT on these efforts.

BACTS Metropolitan Planning Area Map

Road Improvement Project Selection

Highway related projects are submitted to the BACTS project prioritization committee for consideration, scored and ranked by criteria which has been approved by the BACTS Policy Committee, and provided to MaineDOT for consideration of inclusion in the MaineDOT Work Plan. The BACTS project rating process is detailed [here](#).

Carryover projects are also listed in this TIP. These are projects that were approved under previous programs that have been started either in the preliminary engineering phase or preconstruction phase but have not yet been constructed. Funding for these projects may be from previous programs, this program, or future programs, depending on the magnitude and complexity of the project.

Prioritized Project Listing

Applying the BACTS project rating criteria to the preliminary list of projects generated by the municipalities historically has produced a priority list of projects. Note - not all of the projects on the BACTS prioritized list of projects have been approved for funding by MaineDOT in the 2025-2028 TIP.

BACTS Prioritized Project List for Consideration in 2025-2027 Work Plan

Municipality	Location	Project Type	Preliminary Cost Estimates
Brewer	Wilson Street - 0.4 Mile West of Vista Way to Chamberlain Bridge	Preservation	\$1.7M - \$1.9M
Brewer	Wilson Street (0.6 Mile East of Parkway South to 0.4 Mile West of Vista Way) and Portion of State Street	Preservation	\$1.3M - \$1.4M
Brewer	Wilson and Greenpoint Intersection	Operational and Safety Improvements - Signal Project	\$52,663
Brewer	Wilson and Pierce/Sparks Intersection	Operational and Safety Improvements - Signal Project	\$125,000 - \$175,000
Bangor	Hogan Road and Bangor Mall Blvd Intersection	Operational and Safety Improvements - Signal Project	\$547,532
Brewer	State Street - Eastern Avenue to Somerset Street	Other Safety Project	\$450,000 - \$550,000
Bangor	Intersection of I-395 and Odlin Road	PE	\$269,446
Brewer	South Main Street - 0.06 Miles northeast of Elm to Orrington Line	Sidewalk Project - Replacement	\$250,000 - \$300,000
Brewer	South Main and I395 Intersection	Operational and Safety Improvements - Signal Project	\$52,663
Brewer	South Maine and Cianbro Square Intersection	Operational and Safety Improvements - Signal Project	\$250,000 - \$300,000

*Project was funded

BACTS Staff also submitted a prioritized collector paving list for consideration, this list is available upon request.

FHWA Roadway Project Funding

The BACTS 2025-2028 TIP contains all projects in the BACTS region funded using a combination of federal, state, and local monies. Additional information on funding sources for various projects may be found in the Maine DOT Statewide TIP (STIP). Roadway projects on state and state-aid roads in the BACTS region receive funding from the Surface Transportation Program (STP), Surface Transportation Block Grant Program (STBG),

National Highway Performance Program (NHPP), and National Highway System (NHS), as well as state and local sources.

The type of funds are indicated as part of each project in the TIP list of projects in Appendix B. Typically, the non-federal funds used to match the allocated FHWA funds for highway projects are allocated at ten percent state and ten percent local funds.

All the funds for the 2025-2028 TIP are reasonably expected to be available based on both past funding and agreements with MaineDOT for the federal and state funds and the local communities for their share of projects.

MaineDOT and BACTS engage in a cooperative process to develop a prioritized list of projects and a funding strategy to see them through completion. Once a project has been selected for the formal MaineDOT Work Plan through this process, MaineDOT develops a two-party agreement for each project between MaineDOT and the municipality.

Annual FTA § 5307 Transit Operations and Maintenance Project Listing

FTA's Urbanized Area Formula Funding program (§5307) makes federal resources available to urbanized areas for transit capital and operating assistance and transportation related planning in urbanized areas. Eligible activities include planning, engineering, design and evaluation of transit projects and other technical transportation-related studies; capital investments in bus and bus-related activities such as replacement, overhaul and rebuilding of buses; crime prevention and security equipment; construction of maintenance and passenger facilities; overhaul and rebuilding of vehicles, communications, and computer hardware and software.

All preventive maintenance and some Americans with Disabilities Act (ADA) complementary paratransit service costs are considered capital costs. The greater Bangor urbanized area has a population of less than 200,000; as such, operating assistance is also an eligible expense under the §5307 program.

Annual FTA § 5339 Transit Capital Project Listing

FTA's Bus and Bus Facilities program (§5339) makes federal resources available to States and designated recipients to replace, rehabilitate and purchase buses and related equipment. This resource also can be used to construct bus-related facilities; including technological changes or innovations to modify low or no emission vehicles or facilities. Funding is provided through formula allocations and competitive grants.

As the small urban transit provider in the greater Bangor urbanized area, the City of Bangor - Community Connector receives FTA § 5339a Bus and Bus Facilities formula funds annually as allocated by the MaineDOT Multimodal Planning Division. This funding is provided to assist in financing capital projects to replace, rehabilitate, purchase buses and related equipment, and to construct bus-related facilities.

In addition to the §5339a Bus and Bus Facilities formula funding allocated by MaineDOT, the §5339 funding program also offers an opportunity for transit agencies to competitively apply for funding for capital projects.

Program of Projects (POP)

The POP is the list of projects programmed in the BACTS' TIP proposed by a grant recipient to be funded from the area's FTA. Below is the POP proposed by the City of Bangor – Community Connector to be funded from FTA §5307 and §5339 funding.

BACTS 2025-2028 TIP Transit POP												
					2025				2026

A breakdown of federal formula funding appropriations, obligations, and carryovers can be found below.

Federal Formula Funding Appropriations, Obligations, and Carryovers						
	Past		Present		Estimated Future	
	Prior	2024	2025	2026	2027	2028
Total §5307 Appropriated Funding		\$ 2,088,600	\$2,088,000	\$2,088,000	\$ 2,088,000	\$ 2,088,000
<i>Obligated Funds During Fiscal Year</i>			\$ 4,512,012	\$ 2,310,000	\$ 2,310,000	\$ 2,310,000
§5307 Funds to Carry Forward	\$ 3,367,879	\$ 5,456,479	\$ 3,032,467	\$ 2,810,467	\$ 2,588,467	\$ 2,366,467
Total §5339a Appropriated Funding		\$ 121,743	\$ 121,743	\$ 121,743	\$ 121,743	\$ 121,743
<i>Obligated Funds During Fiscal Year</i>		\$ 461,560	\$ 107,829	\$ -	\$ -	\$ -
§5339a Funds to Carry Forward	\$ 461,560	\$ 121,743	\$ 135,657	\$ 257,400	\$ 379,143	\$ 500,886
Total Appropriated Federal Funds		\$ 2,210,343	\$ 2,209,743	\$ 2,209,743	\$ 2,209,743	\$ 2,209,743

Financial Capacity of Public Transit Operator

The City of Bangor owns and operates the fixed route public transit system in the BACTS area and is a direct recipient of FTA § 5307 Urbanized Area Formula Funding. FTA requires grantees to certify their ability to;

- operate and maintain current assets
- operate and maintain new projects listed in the TIP/STIP, and
- maintain the same level of service during a 20-year period, or a single equipment replacement cycle.

These self-certifications are subjected to FTA review during STIP approval and, subsequently, at the time of grant application. BACTS relies on FTA's *Financial Capacity Certifications* to fulfill the requirement for demonstrating the transit operator's ability to operate and maintain their systems.

The local funds required for operating the federally funded fixed route transit system are allocated, by formula based on percentage of vehicle revenue hours, among the six municipalities which the Community Connector serves and the University of Maine. The funds required for operating the locally funded Black Bear Orono Express are paid equally by the Town of Orono and the University of Maine.

Air Quality Conformity

The BACTS UZA has been determined to be in attainment for all federal air quality standards at this time.

Performance Based Planning and Programming Requirements and Performance Measures

To accomplish the goals and objectives of a continuing, cooperative, and comprehensive performance-based multi-modal transportation planning process, BACTS, in cooperation with the MaineDOT and the City of Bangor - Community Connector, is required to develop a TIP through a performance-driven, outcome-based approach to planning for the metropolitan area.

Under the performance-based approach to transportation decision making, the metropolitan transportation planning process must establish performance targets to track the region's progress in the following national transportation priority areas established by the FHWA and the FTA.

- | | |
|----------------------------------|------------------------------------|
| 1. Safety | Vitality |
| 2. Infrastructure Condition | 6. Environmental Sustainability |
| 3. Congestion Reduction | 7. Reduced Project Delivery Delays |
| 4. System Reliability | |
| 5. Freight Mobility and Economic | |

FHWA Safety Performance Measures

The Moving Ahead for Progress in the 21st Century Act ((MAP-21), P.L. 112-141) and subsequent federal legislation established five performance measures related to highway safety, which the BACTS Policy Committee has committed to support and plan and program projects in order to satisfy.

- | | |
|---|---|
| 1. Number of fatalities; | 4. Rate of serious injuries per 100 million vehicle miles traveled; and |
| 2. Number of serious injuries; | |
| 3. Rate of fatalities per 100 million vehicle miles traveled; | 5. Number of non-motorized fatalities and serious injuries. |

Federal regulations require BACTS to establish safety targets (expressed as five-year rolling averages and compared with a five-year rolling average base period comprising of the five calendar years ending prior to the year the targets are due) each year by either:

1. Agreeing to plan and program projects so that they contribute toward the accomplishment of the State DOT safety target for that performance measure; **OR**
2. Committing to a quantifiable target for that performance measure for their metropolitan planning area.

The MaineDOT Office of Safety has developed BACTS metropolitan planning area specific calculations applying the same assumptions and methodology used to develop the Statewide performance targets as shown in the BACTS Performance Management Report, which can be found on the BACTS website here - <https://bactsmmpo.org/data-library/>.

In supporting the MaineDOT developed safety performance targets, BACTS will continue to work with the State and safety stakeholders to address areas of concern for fatalities and serious injuries within the metropolitan planning area. These local, regional, and state-wide efforts are aimed at decreasing crashes and serious injuries through better crash investigation and reporting, physical reconfigurations of hazardous conditions, more local regulations that encourage good bicycling and walking environments, greater awareness of other users of the transportation system, and stricter enforcement of existing laws and regulations. BACTS supports the State's efforts and coordinates with MaineDOT as much as possible on programs, plans, and projects. This TIP incorporates the goals and objectives of the Maine Highway Safety Improvement Program and the Maine Strategic Highway Safety Plan.

FHWA Pavement and Bridge Performance Measures

The MAP-21 and subsequent federal rulemaking established six performance measures related to Bridge and Pavement Condition. The measures are:

1. Percentage of interstate pavements in good condition
2. Percentage of interstate pavements in poor condition
3. Percentage of non-interstate NHS pavements in good condition
4. Percentage of non-interstate NHS pavements in poor condition
5. Percentage of NHS bridges by deck area in good condition
6. Percentage of NHS bridges by deck area in poor condition

Federal regulations required BACTS to establish initial bridge and pavement condition performance targets on or before November 16, 2018, and requires targets to be established every four years thereafter, related to each of these six performance measures by either:

1. Agreeing to plan and program projects so that they contribute toward the accomplishment of the State DOT target for that performance measure; or
2. Committing to a quantifiable target for that performance measure for the metropolitan planning area.

MaineDOT owns the entire NHS system in Maine except for the Maine Turnpike. MaineDOT collects 100% of the pavement data for the NHS system (including the Turnpike) and inspects all non-Turnpike bridges. As MaineDOT has responsibility and authority for planning and programming all projects for the Interstate and major bridge planning activities, the BACTS Policy Committee has agreed to support the relevant MaineDOT established 4-year pavement and bridge condition performance targets and support the planning and programming of projects that contribute to MaineDOT's performance targets. BACTS is currently conducting a pavement condition assessment to prioritize pavement investment in order to most efficiently maintain pavement quality to these required standards in the region.

The MaineDOT Results and Information Office has provided BACTS with region-specific pavement and bridge condition targets as shown in the BACTS Performance Management Report, which can be found on the BACTS website here - <https://bactsmppo.org/data-library/>.

Minimum acceptable pavement conditions require that not more than five percent of Interstate pavements be in poor condition. Minimum acceptable conditions for NHS bridges require that not more than ten percent of the total deck area of a State's NHS bridges are classified as structurally deficient for three consecutive years. This TIP incorporates the goals and objectives of the Maine DOT Transportation Asset Management Plan for the NHS. The MaineDOT Transportation Asset Management Plan can be found [here](#).

FHWA System Performance and Freight Performance Measures

The MAP-21 act and subsequent federal legislation established six performance measures to carry out the National Highway Performance Program (NHPP); the National Highway Freight Program (NHFP); and the Congestion Mitigation and Air Quality Improvement (CMAQ). The measures are:

1. Two measures to assess reliability of system performance:
 - a. Percent of reliable person-miles traveled on the Interstate.
 - b. Percent of reliable person-miles traveled on the non-Interstate NHS.
2. A measure that will assess freight movement on the Interstate by the percentage of Interstate system mileage providing for reliable truck travel time (Truck Travel Time Reliability Index).
3. A measure that will assess total emissions reductions by applicable pollutants under the CMAQ program.
4. Two measures that will assess traffic congestion under the CMAQ program:
 - a. A measure that will assess annual hours of peak hour excessive delay per capita.

- b. A measure that will assess modal share; specifically, the percent of non-single occupancy vehicle travel which includes travel avoided by telecommuting.

The BACTS area does not contain any part of a nonattainment or maintenance area for any of the criteria pollutants, as provided in 23 CFR 490.105(f)(6); and is therefore not subject to the CMAQ traffic congestion measure (23 CFR 490.703), or on-road mobile source emissions measures (23 CFR 490.707 and 23 CFR 490.807) as identified in the measures described in 3 and 4 above.

Federal regulations required BACTS to establish initial System Performance and Freight reliability performance targets on or before November 16th, 2018, and every four years thereafter, related to each of these performance measures by either:

1. Agreeing to plan and program projects so that they contribute toward the accomplishment of the State DOT targets for system performance and freight reliability performance measure; or
2. Committing to a quantifiable target for that performance measure for their metropolitan planning area.

The BACTS Policy Committee agreed to support the MaineDOT developed performance targets and plan and program projects to contribute toward the accomplishment of the relevant MaineDOT established 4-year System Performance and Freight Reliability performance targets. The MaineDOT Results and Information Office also provided BACTS with region specific system performance and freight reliability condition data as shown in the BACTS Performance Management Report, which can be found on the BACTS website here - <https://bactsmppo.org/data-library/>.

BACTS will track and monitor non-interstate NHS performance to determine if decline in performance is related to any specific area, weather events, construction or other non-traffic related issues. BACTS will continue to support local, regional and state-wide efforts to improve system performance and reliability. This TIP incorporates the goals and objectives of the Maine Integrated Freight Strategy. Maine Integrated Freight Strategy can be found [here](#).

FTA Transit Asset Management Performance Measures

The MAP-21 act and subsequent federal legislation established four state of good repair performance measures under the transit asset management (TAM) rule for a strategic and systematic process of operating, maintaining, and improving public capital assets effectively through their entire life cycle.

The purpose of TAM is to help achieve and maintain a state of good repair (SGR) for the nation's public transportation assets. The TAM rule develops a framework to monitor and manage public transportation assets, improve safety, increase reliability and performance, and establish performance measures.

The performance measures are:

1. Rolling Stock - The percentage of revenue vehicles (by type) that exceed the useful life benchmark (ULB).
2. Equipment - The percentage of non-revenue service vehicles (by type) that exceed the ULB.
3. Facilities - The percentage of facilities (by group) that are rated less than 3.0 on the Transit Economic Requirements Model (TERM) Scale.
4. Infrastructure - The percentage of track segments (by mode) that have performance restrictions. Track segments are measured to the nearest 0.01 of a mile.

This TIP incorporates the Community Connector (a division of the City of Bangor) transit service's goals and objectives in the most recently modified Transit Asset Management Plan, which can be found [here](#).

FTA Transit Safety Performance Measures

The National Transit Safety Plan (NSP) outlines four categories of safety measures, whereby seven safety performance targets must be established by mode:

1. Fatalities - Total number of fatalities reported to NTD and rate per total vehicle revenue miles (VRM) by mode.
2. Injuries - Total number of injuries reported to NTD and rate per total VRM by mode.
3. Safety Events - Total number of safety events reported to NTD and rate per total VRM by mode.
4. System Reliability - Mean distance between major mechanical failures by mode.

Transit agencies are required to review their Public Transportation Agency Safety Plans, and performance targets, annually. Just as with TAM SGR performance targets, MPOs are not required to set new transit safety targets each year, but can revisit the regional safety performance targets based on the schedule for preparation of its system performance report that is part of the MTP.

The initial BACTS metropolitan planning area transit safety performance targets were calculated using the peer benchmarking strategy using data obtained from the National Transit Database. In January 2021, the BACTS Policy Committee adopted the updated safety performance measures, provided by the Community Connector.

This TIP incorporates the Community Connector's goals and objectives in the most recently submitted Public Transportation Agency Safety Plan, which can be found [here](#).

Public Participation Process

The BACTS Policy Committee is the policy making body and has authority to develop, endorse, and revise the TIP when needed. Policy Committee meetings are open to the public. Meeting notices and agendas are posted to the BACTS website seven days prior to a scheduled meeting and meeting minutes are available after Committee approval.

The BACTS Policy Committee has a written Public Participation Plan, which can be found [here](#). A notice of opportunity for public comment, along with the draft TIP document shall be posted on the BACTS website. A public notice of the posting and public comment period shall be sent (via e-mail) to the contacts on the *Interested and Affected Parties* mailing list. A period of at least 10 days beginning from the date of the posting of public notice shall be provided during which comments may be submitted to BACTS for consideration. BACTS compiles all relevant public comments, or a summary of similar comments, for consideration by the Policy Committee prior to the final approval of the TIP. Comments may also be forwarded to MaineDOT for their review, response, and including in the final STIP, when deemed appropriate. The final approved TIP shall be posted on the BACTS website and shall be available at the BACTS office for public viewing.

To receive a grant under FTA §5307, a recipient must meet certain requirements concerning public participation in development of a POP and must certify compliance with these requirements. As a recipient of FTA §5307 funding, the City of Bangor has opted to satisfy their public participation requirements through the development of the BACTS TIP. ***Public notice of public involvement activities and time established for public review and comment on the TIP will satisfy the POP requirements of the § 5307 Program.***

TIP Administrative Modification / Amendment Procedures

		Administrative Modification	Amendment
Definition		Occurs when a minor change to the TIP is required for a project	Occurs when a revision is required to the TIP that involves a major change to a project
Examples		- Financial adjustments - Combining or separating two or more projects that are part of an approved STIP/TIP - Combining or separating phases within a project that are part of an approved STIP/TIP - Adding or removing phases to a project - Creating a lineage WIN with a total project cost - A scope change resulting in a financial adjustment - Project location/limits (by reference or otherwise) can be revised/updated - Can add a fully obligated project from a past STIP to the current STIP	- Adding or removing a significant project - Adding or removing a non-exempt phase of a project - Adding or removing a new project - A scope change resulting in a financial adjustment - A change in the total cost of a project in accordance - Creating a lineage WIN with a total project cost - Project location/limits (by reference or otherwise) can be revised/updated - Adding a project from a prior STIP to the current STIP TIP Administrative Modifications
Process		BACTS Staff member provides the Policy Committee via email with a three business day notice of an amendment.	The proposed amendment is brought to the BACTS Policy Committee for approval, once approved, the amendment is posted for a 10 day public comment period.
Public Comment Period		N/A	10 Days
\$ Thresholds	Current Project Approved Funding		
	≤\$2M	For changes up to \$1M	Required for changes greater than \$1M
	+\$2M	For changes up to 50% of current approved funding	Required for changes greater than 50% of current approved funding
Linear Project Location Limits Change Thresholds	Interstate	Unlimited	N/A
	Non-Interstate	Up to 1 Mile	>1 Mile

Project Listings

The following project lists, in Appendix B, detail all transportation projects within the BACTS Region recommended for federal funding from 2025 through 2028. These lists were generated by MaineDOT and represent a snapshot of that point in time. Since the printing of these lists, corrections, additions, and deletions to the original document have been made and documented on the Errata Sheet in Appendix C. The Errata Sheet is a running compilation of any changes, errors and omissions in the original listing and is incorporated into the approved TIP document. The Errata Sheet is also a dynamic document which will be updated throughout the lifecycle of this Program to document any approved changes to projects within this TIP.

Appendix C - Errata Sheet

The errata sheet is updated as needed. Please see our [website](#) for the most current version.

Appendix D - Metropolitan Transportation Planning Self - Certification

METROPOLITAN TRANSPORTATION PLANNING SELF-CERTIFICATION (To be submitted with the Statewide Transportation Improvement Program)

The Metropolitan Planning Organization, BACTS, in accordance to Title 23 §450.336 and 23 CFR Part 450 hereby certifies that the transportation improvement process is addressing major issues facing the MPO, and is being carried out in accordance with the following requirements:

- (1) 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- (2) In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
